RFID Tag

Model No: PR2600

Product Description

The RFID tag enables to disarm the system and automatically opens the connected electric door clock (if connected). When used with the GSM alarm system, users will receive messages of disarming.

Features:

- *Use to disarm the system and get a SMS text message notifying you that a user deactivated the system
- *Perfect for children and aged
- *Reuse, rename or edit each tag as necessary
- *Water and dust resistant
- *Compatible with smanos alarm system
