Dream Big. Live Smart.

S105

On-Site Alarm System

Force Amplifier

When the SS1005 siren goes off, it goes off loud (90 dB) and with flashes (blue or orange light).

Plug & Play

Plug the SS1005 into an AC power socket, and it works. No wires, no fuss.

Night Beacon

The SS1005 beacons a sense of serenity and security (in a non-intrusive and heart-warming blue or orange hue), when functioning in "home" mode, through 5 built-in LED's.

Note: This is the SS1005 working as part of the independent on-site S105 alarm system. As an additional siren to another system controller, the SS1005 only sounds and flashes, no Night Beacon.

System Specifications

Power Input **AC 100-240V, 50/60Hz**

Static Current **≤ 13mA**

Alarm Current **≤ 100mA**

Internal Siren Volume **90dB**

Supported Accessories **40pcs**

Battery **3.7V 600mAh lithium battery**

Radio Frequency **868 MHz**
