

# W100

## WiFi/PSTN Alarm System

## Tech Wonder

An astoundingly good-looking security force to be reckoned with yet requires only your home WiFi and phone connections

**smanos**<sup>®</sup>  
Dream Big. Live Smart.

# W100

## WiFi/PSTN Alarm System

### Remote Wonders

The smartphone app is compatible with the latest iOS and Android releases, and always stays connected to the system controller via your cellular data link and home WiFi for free; its interface is aesthetic to look at and intuitive to operate on.

### Double the Networks, Double the Security

The PSTN landline serves as a backup measure when the WiFi connection or power goes down unexpectedly. You can simply dial into the W100 (with a backup battery) to adjust system settings, and triggered alarms can be made over the landline as well.

### Relentlessly Reliable

The W100 boasts an LCD touch screen for easy setup and operation; you can also look up the latest 20 system events directly on the screen.

### System Specifications

Model No. **W100**

Power Input **DC 12V 500mA**

Static Current **≤ 100mA**

Alarm Current **≤ 250mA**

Backup Battery **3.7V 1200mAh 18650 lithium battery**

Internal Siren Volume **110dB**

Supported Accessories **10 remote controls, 30 sensors**

Radio Frequency **868MHz**

Housing Material **ABS plastic**

Temperature **-10°C ~ +55°C**

Humidity **≤ 80% (non-condensing)**

Dimensions (L×W×H) **138.8 x 125 x 125.5 mm**

### Package Details

W100 Control Panel **×1**

MD2300 Wireless PIR Motion Detector **×1**

DS2300 Wireless Door/Window Contact **×1**

RE2300 Wireless Remote Control **×2**
